

KEY ACTIVES

MONUSKIN

NATURAL ACTIVE SKINCARE

Citric Acid
A PH modifier.

Glycolic Acid

Glycolic Acid is an exfoliator. It safely removes the outer layer of dead skin cells on the surface your skin, bring fresh new skin to the surface. This is beneficial for those who are looking for ingredients that help with anti-aging. Glycolic acid can also help lighten discoloration of the skin, such as sun spots or age spots and help those with acne-prone and blackhead-prone skin.

Grapefruit Peel

Stimulates circulation, tones & rejuvenates skin for a more youthful appearance.

Lactic Acid

The mildest and most effective AHA available. This natural AHA weakens the bonds that hold dead skin cells together enabling them to be shed more easily from the skin.

Orange Essential oil

With a delicious, tangy fragrance, Orange is an uplifting, refreshing oil which has a mildly relaxing effect on the system. Softens thick, fissured skin.

Salicylic Acid

Occurs naturally in wintergreen leaves, birch and selected plants. This beta hydroxy acid improves the appearance and condition of the skin.

Sodium Bicarbonate
Has exfoliating properties

Tangerine Peel Oil

This fragrant, citrus oil has an uplifting effect on the system.

Vitamin C

An Ascorbic acid and Polypeptide complex. Plays an important role in metabolic processes. Acts as an antioxidant
