

LASER HAIR REMOVAL TRAINING

***When purchased with;
SmartDiode Compact**

Pre-Course Theory: 2 hours approx
Practical: 2-3 hours, 10am - 1pm approx

Skill Level:

Suitable for Hair & Beauty Professionals, Male Grooming, Mobile Therapist and Health & Fitness professionals. ** Entry Level Minimum Level 2 in Beauty or a Level 3 A&P module. (If you do not have either and are interested in an A&P qualification to be able to start your laser training journey, contact trainingcoordinator@capitalhb.co.uk).

Course brief:

Learn how to use your new leading portable Laser Hair Removal device.

Course Overview:

- Join an Expert Smart trainer who will deliver a comprehensive program of both theory and practical. Focusing on excellence in results and exceptional client care to support you in becoming a laser specialist.
- Come and discover how you can generate over £200 per hour.
- You will have access to a Personal Business Development Manager after your training for ongoing business support to help build your laser business. Also included; ongoing technical, commercial and clinical support from a trusted partner with 32 years of experience.

Important Info:

- Training consists of both online learning which is submitted prior to an in-store practical at a Capital Hair & Beauty store.
- Minimum age for this course is 18 years old.
- A training date may be arranged at time of purchase in store or Capital H&B or Smart Group will contact you following your purchase of the SmartDiode Compact, to arrange.
- A model is required (or can work on each other if training is held as a group session). A model is required throughout the duration of the practical training (2-3 hrs).
- Model requirement:
 - Area's demonstrated: Lower leg, upper lip/chin, underarm/bikini line
 - Fake tan free or at least 2 weeks prior to training
 - Limited number of tattoo's preferable
 - Area shaved prior to training day eg night before
 - No deodorant
- A welcome email will include digital marketing assets and theory pre-test information.
- Upon successful completion, students will receive a framed certificate in the post.
- Some councils require you to register with them/VTCT Level 4 in Laser. It is important students check with their local council.

Equipment Needed For In Store Practical:

- All equipment will be provided for the course.
